PROFESSIONAL SUMMARY

Results-driven **Software Engineer** and **Team Lead** with **3+ years** of experience building production software across **ERP systems, full-stack applications,** and **AI/ML solutions**. Led the **Odoo 17–19 migration** and the development of custom Odoo 19 modules for a live telecom business, and independently built an **AI-powered recommendation system** using **KNN/K-Means, NLP chatbots,** and multilingual/voice features. Strong command of **Python, PostgreSQL, JavaScript, Git/GitHub,** and **Linux**, with an **Odoo Technical Academy** certification.

WORK EXPERIENCE

KK Networks (PVT) Ltd — Lahore **August 2025 – Present**

Software Engineer – Team Lead

- Lead a development team and own the design, development, and maintenance of interconnected **custom Odoo 19 modules** covering CRM, Subscription Billing, Accounting, HR, and Infrastructure/Utility (POP) tracking for a live telecom business.
- Led the **Odoo 17–19 migration** of core modules, resolving breaking API changes, view syntax renames, and workflow regressions.
- Configure **access rights, record rules, and security groups**; build **QWeb PDF reports**, XML views, dashboards, wizards, and automated approval workflows.
- Debug production issues using Odoo logs, Python tracebacks, Odoo shell, and **PostgreSQL queries**; deliver root-cause fixes with minimal downtime.
- Administer **Linux Ubuntu** ERP servers and manage code with **Git & GitHub** using structured branching and deployment practices.

Self-Employed / Freelance **August 2023 – August 2025**

Freelance Software & Odoo Developer

- Delivered **custom Odoo module development** and ERP customization for multiple clients across CRM, Sales, Inventory, and Accounting, from requirements gathering to deployment.
- Built **XML views, QWeb reports, wizards,** and automated workflows, with role-based **access rights and record rules**.
- Managed end-to-end **Odoo deployment and maintenance** on Linux servers, including installation, upgrades, and PostgreSQL troubleshooting.

National Highway Authority (NHA) — Lahore **April 2024 – May 2024**

Summer Intern

- Supported documentation, compliance reporting, meeting briefs, data entry, and internal administrative coordination.

VNOXTEL LLC **July 2022 – August 2023**

Sales Executive

- Handled client communication, lead generation, and sales coordination; consistently met targets through negotiation and follow-up.

KEY PROJECTS

Wander Hub AI — Intelligent Travel Planning System *BSCS Final Year Project*

- AI-powered travel recommendation platform for Pakistan & Saudi Arabia featuring **KNN/K-Means** package recommendations, an **NLP chatbot**, multilingual translation, **voice generation**, real-time weather, and currency conversion. Designed and built end-to-end.

Mian Amjad Garments — Business Management System *mian-amjad-garments-erp.vercel.app*

- Full-stack inventory, billing, and ledger system for a garments business: role-based access, multi-attribute inventory, custom per-inch pricing calculator, billing engine with GST and live invoice preview, and customer ledger.
